

GET INVOLVED

We invite you to join us in "hooking" youth on the sport of fishing and developing future generations of resource-minded conservationists.

As a fishing enthusiast, you can leverage your passion in a very direct way where it matters most: with young people in our public and private schools. Educating our youth can make a positive difference in their lives forever. More anglers means more stewards and people that care for the resources they respect.

There are countless ways to get involved and sharing your passion is sure to be a rewarding, filling gesture.

Please send me information about:

- Becoming a Level 2 NFSP Certified Teacher Trainer so I may "teach the teachers"
- Giving a major philanthropic gift
- Supporting 10 rod outfits.

CREATING CONSERVATIONISTS FOR OUR FUTURE

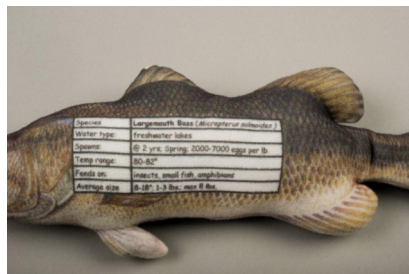

"I just wanted to thank you for presenting your program yesterday. I thought it was excellent and I had a great time. I am eager to teach this program to my students and hopefully help them to discover/re-discover the joys of the outdoors. Please let me know if I can do anything to help your program grow and succeed."

REDUCE NATURE DEFICIT ORDER IN YOUTH

"Fishing in Schools" is a nationwide program patterned after the National Archery in Schools Program. The parent organization, the Fishing Education Foundation (FEF), is a non-profit corporation established to provide matching grants to schools interested in acquiring NFSP.

The "Fishing in Schools" program accommodates students irrespective of gender, physical ability or natural aptitude. The program's objective is to teach students in grades 6-12 a lifetime outdoor skill in school gymnasiums. The core two week foundation curriculum for Physical Education teachers addresses 4 National Academic Standards (PE, Science, Language Arts & Technology.)

The comprehensive "Cast A Fly...Catch A Student" curriculum (featuring flyfishing), and its sequel, "Cast A Lure...Catch A Student" (spincasting), include detailed unit/lesson plans, reference tools, teaching aids and assessments.

Yes! I want to help educate the next generation of anglers
